SUMMARY

I am a Data Analyst with a Bachelor of Computer Applications (BCA) degree, specializing in data science. I am proficient in Python programming, SQL, and Power BI, with experience in analyzing and leveraging machine learning models to extract actionable insights. I am passionate about transforming complex datasets into meaningful visualizations and data-driven strategies that enhance business performance.

Technical Skills

- **Language and Databases:** Python, Numpy, Pandas, SQL.
- **Visualization:** Matplotlib, Seaborn, Power bi
- **Other Skills :** Advanced Excel, Business Analysis, Data Analysis, web scrapping

PROJECT EXPERIENCE   ⊡ LINK

- **Loan Approval Prediction**

Dec 2024 - Present

Developed a machine learning model to predict loan approval based on applicant details.
Performed data preprocessing tasks, including handling missing values, encoding categorical
variables, and feature scaling. Conducted exploratory data analysis (EDA) to identify key patterns
and insights from the dataset's.

- **Amazon Review Analysis**

Dec 2024 - Present

Performed data cleaning and manipulation.
Performed exploratory data analysis (EDA) using Pandas, Matplotlib, and Seaborn libraries.
Demonstrated proficiency in NLP, data analysis, and visualization, extracting valuable insights from
unstructured text data to improve decision-making processes by 30%.

EDUCATION

Quantum University   **Nov 2021 - Nov 2024**
Bachelor of Computer Application   Roorkee Uttarakhand

CERTIFICATION

Deloitte - Data Analytics, Creating a data dashboard using Power bi and Use Excel to classify data and draw bussiness conclusions.
